

EASY TO BUILD

IDEAL FOR:

- EVENTS INDUSTRY
- EXHIBITORS
- RACE MEETINGS
- VANS, TRACKS & TRAILERS

VEHICLE AWNINGS

Our range of Windout Vehicle Awnings are tailor made to suit your vehicle. We also offer Modular Framed Awnings, see brochure for more details.

OUR CUSTOMERS say 'You have provided an excellent personalised service and I will recommend your company in the future to all my colleagues in motorsports!'

EASY TO USE

Your Awning can be installed in minutes! Simply wind out the Awning by hand or motor, fit the legs and enclose the fabric edge within the framework using our keder system.

RETRO-FITTED

Your Awning is custom made and retro-fitted to your vehicle. They can be fitted on small to medium Panel Vans as well as large Trucks and Trailers. The cassette houses the roof fabric and wind out mechanism and is permanently fixed to your vehicle. We can fit your awning at our work premises over a full working day or courier to you or your coachbuilder.

PRODUCT RANGE

We offer Heavy Duty Windout Vehicle Awnings to suit your budget and requirements. We use a compact, state of the art cassette with robust framework and fittings. Our windout cassette carries a 5 Year warranty.

Roof only or full Awning – You can choose between a roof only or full awning, which has all three sides enclosed. Alternatively you can specify your own combination! We offer various options such as windows, internal partitions and vehicle skirts.

BRANDING OPTIONS

We can print your Awning with full colour, digital images to show your logo or graphics. You can choose from a variety of coloured fabrics to match your corporate colours.

Awnings & Canopies

Fabric Engineering at its best

PRODUCT SPECIFICATION

Vehicle Awning

Ideal for larger trucks and trailers or frequent usage.

Size – varies from width along the vehicle 2.9m to 7m, with projection up to 3.5m

Fabric & Colour – Easy to clean, PVC/vinyl fabric. Standard colour is 'off white', special colours are from over 30 options (swatch available on request).

Cassette – starts from 210 x 147 mm section dimensions, depending on fitting type & awning size. Standard is white; other colours available.

Flexibility - Awnings can be divided into separate sections to provide hospitality, promotional or private areas as required.

Framework - for hard standing surfaces where pegging down is not possible, an aluminium Hard Standing Base Frame is recommended. The adjustable legs cater for uneven ground and variations in height.

Optional Extras –

- Windows (picture or plain, square or arched, with or without privacy panel),
- Internal Dividers.
- Additional openings / zip up doors.
- Vehicle Skirts.
- With or without Hard Standing Base Frame.

- Special brackets to fit to majority of vehicle models.
- Choose either a manual or motorised wind out mechanism.
- Add graphics / banners to suit your Corporate image.
- Choose from a variety of coloured fabrics.
